AUSTRALIA

## WHAT MAKES MARITIMO OCEANS APART?

When you consider that Australia is the world's largest island, it comes as no surprise it's home to the world's finest long-range cruising motoryachts.

After all, with a coastline measuring almost 32,000 nautical miles in length, and facing the Indian,

Southern and Pacific oceans', it's the perfect place to test the skills of a boat builder.

For Australia's Bill Barry-Cotter, that test has continued for 40 years, making him Australia's most awarded boat builder in the process. And this lifelong passion

has culminated in the launch of Maritimo, a collection of luxury motoryachts without peer.

In fact, nothing on water looks, feels or performs quite like the Maritimo. It simply manages to be both timeless and ahead of its time. It truly is oceans apart.

## A50 AEGEAN FLYBRIDGE. TWO MOTORYACHTS IN ONE.

If you love the outdoors, as well as life's luxuries, why compromise? On the Maritimo A50 Aegean Flybridge you can feel the sun on your back and the wind in your hair at the same time as knowing all the creature comforts are just a few steps beneath your feet. In fact, it delivers

exhilarating performance in the lap of luxury. Like every Maritimo, it also has genuine long-range cruising capabilities. Designed with an advanced variable deadrise hull, engines and fuel tanks over the centre of buoyancy, and a miniscule shaft angle of just

9 degrees, the A50 Aegean Flybridge has effortless poise and balance – and is incredibly fuel-efficient as a result. Named after the Aegean Sea, this elegant addition to the Maritimo fleet would look as much at home in the azure waters surrounding the Greek

Islands as it does cruising along Australia's rugged coastline. Whether you're putting it through its paces offshore, entertaining guests, or relaxing in the luxurious master stateroom with ensuite, the A50 Aegean Flybridge makes cruising twice the fun. It truly is oceans apart.
