## THE FLAGSHIP.

Once in a while, something new comes along that completely re-defines its class. In the world of long-range luxury cruising, that moment has arrived with the launch of the majestic Maritimo 73.

By far the biggest Maritimo, the new flagship actually measures almost 25 metres, with every centimetre dripping in luxury appointments and state-of-the-art technology. The flybridge alone is the size of a respectable cruiser and features every amenity you can imagine.

But only when unleashed do you realise the 73 is built for action, not show. Designed with an advanced variable deadrise hull, engines and fuel tanks over the centre of buoyancy, and a miniscule shaft angle of just 9 degrees, the 73 cruises at 26 knots with effortless poise and balance.

Add to that all the signature features that have made Maritimo famous and you'll see why the world of long-range luxury motoryachts has a new benchmark.

The Maritimo 73. It truly is oceans apart.
